

New London Offices – an exciting look to reflect our refreshing approach...

# canotec london

## our new home in the city

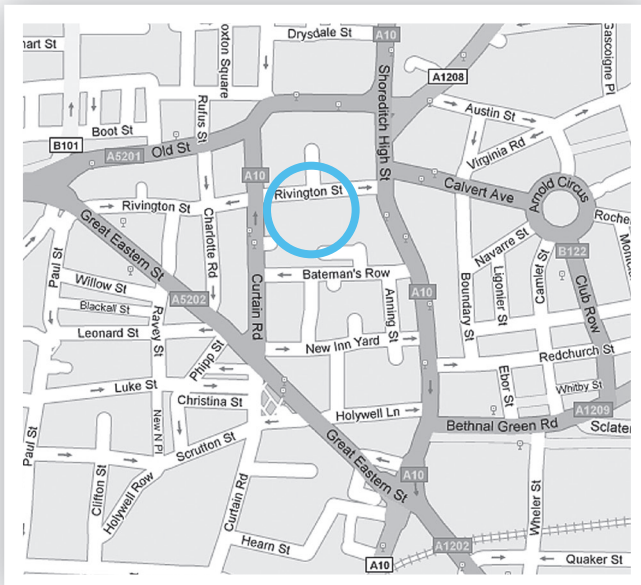

**Continuing Canotec's expansion and building on 17 years as Canon's Elite Partner for the South and HP's Service & Solutions Imaging Partner, our new London offices have an exciting look to reflect our refreshing approach.**

There is even a cedar-decked roof terrace with BBQ and fantastic views over London for our customers to drop in for a coffee or cool beer on the roof!

The office location on Rivington Street, just a short walk to Old Street and Liverpool Street Stations, means your team at Canotec London are in the city and just a few stops from our customers.

In the summer we hope to host a few rooftop events for our customers - weather permitting of course!
